

**Reversed osmoses unit, 3 phase filtration without a pressure pump**

- type wall mount
- water pressure supply 1,5-5 bar
- water quality support <11°dH
- water supply 1/4"
- water drain 1/4"
- R.O. water 1/4"
- 75 GPD membrane
- 3 phase water filtration
- maximum capacity (depending on water pressure) approx 180 litres per day R.O.
- No need for electrical supply
- dimensions (cm) LxWxH 21x37x45
- weight 15 kg ( in use )
- optional tank 9 ltr
- complete set

order code for the applied filters

Bloc filter: F-10I-AC  
Sediment filter 1 micron: F-10I-1m  
Membrane: TW 30-1812-75
