

Reversed Osmosis Unit, 5 phase filtration with pressure pump

- free standing
- water pressure supply 1,5-5 bar
- water quality supply < 11°dH
- water supply 3/8"
- water drain 3/8"
- R.O. water 3/8"
- multiple membranes (5x100GPD Filmtec)
- 5 phase water filtration
- maximum capacity 1480 liter per day R.O.
- voltage 230 Volt / 375W
- rotary pressure pump
- micro-computer controlled
- system pressure gauge
- dimensions LxWxH 28x50x85 cm
- weight 50 kg (in use)
- excl. tank

ordercode for the applied filters

Sediment filter 5 micron:	F-20I-5m
Bloc filter:	F-20I-AC
G.A.C. filter:	F-20I-GAC
Membrane:	TW 30-1812-100
Post carbon filter:	F-IL-PC
